## **Peñasquitos East Transportation Phasing Plan**

\* “Dwelling Units Not to Exceed” refers to the total of constructed dwelling units plus any dwelling units which have previously approved building permits. As an alternative to this limitation of building permits, the developer may enter into an agreement approved by the City Council where building permits above the established threshold may be issued provided final utility connections and occupancy certificates are not authorized until the required improvements are constructed and open to traffic.

\*\* This traffic facility improvement listed must be provided for in an agreement and becomes an immediate condition of any additional dwelling units in that column.

\*\*\* “Improvements” are to be open to traffic to the satisfaction of the City Engineer before exceeding the allowable number of dwelling units in the left column. “Open to traffic” is defined as successful traffic signal turn-on for traffic signals, and as open to normal traffic for the full required number of lanes for the entire length of roadway segments.

\*\*\*\* This improvement is to be open to traffic to the satisfaction of the City Engineer prior to the issuance of any additional building permits for dwelling units in the community.

All tentative maps and development projects are subject to the traffic phasing plan and community facilities phasing plan. This phasing plan should be reviewed annually, along with the Peñasquitos East Public Facilities Financing Plan, for any major changes in the community’s transportation system. One example of such a change is the proposed installation of ramp metering in any freeway access points within the community.

It is understood that at some time in the future it may be desirable to revise some element(s) of this phasing plan, including raising the established threshold, in order to add future benefits to the community. Any change to this phasing plan will require a noticed public hearing by the City Council. Minimum public notice for the hearing shall be 30 (thirty) days. The Rancho Peñasquitos Planning Board, Town Council, Recreation Council, and Homeowners of Peñasquitos Association, Inc. shall all receive this 30-day notice and shall be afforded the opportunity to provide comments to the City Council and/or provide public testimony at the hearing.

Less previously Funded Project: Canyonside Community Park Tennis Courts	<u>\$131,164</u>
<b>Funds Available as of 6/30/05</b>	<b>\$970,720</b>

On March 13, 1990, the City approved the Hampe Hills tentative map (VTM 87-0115, R-275273). Due to extraordinary impacts and burdens placed on the Peñasquitos community relative to the Hampe Hills subdivision project, a condition of the tentative map required the developer to establish a Cost Reimbursement District (established March 19, 1991, R-277529) in favor of the City for the offsite street improvements associated with the proposed Hampe Hills subdivision.

Proceeds from the Cost Reimbursement District are to accrue to the Peñasquitos East Trust. Also, other conditions related to the tentative map called for developer contributions towards general improvements within the community. All funds deposited into the Peñasquitos East Trust are to be used for public purposes in the Peñasquitos East community planning area.

\*Note: A portion of the revenues received (currently \$55,868.00), were received as a condition of development within Peñasquitos by various developers. These funds are earmarked for the Carmel Valley Trunk Sewer project.
